

# GcMAF Scientist Lynda Thyer Unlawfully Arrested Once More at French Court of Appeals in Paris; Powerful Immune System Cancer and Autism Cure Being Suppressed By Pharma & Banking Powers Behind MHRA, FDA, EU

In a completely unexpected and profoundly unlawful turn of events, GcMAF scientist **Lynda Thyer** was arrested once more outside the French Court of Appeals in Paris yesterday and returned to jail [after being released last week](#) on a ruling (which was then [abruptly reversed](#) on Friday December 13) by the French Court of Justice whereby the European Arrest Warrant she had been arrested on, under a number of false charges, and signed by a Procureur rather than a judge was deemed invalid by European law.

*David Noakes, President of Immuno Bio Tech reports: "On Monday 16th December in the Supreme Court of Paris, Lyn was handcuffed, surrounded by six police officers, and, as a completely innocent woman, taken back to Fleury Merogis prison.*

*There are a lot of people in the court who were appalled at what happened. Lynda's avocat, Chloe Arnoux couldn't believe it."*

The appalling news was discussed in a fiery Newsbreak at [Ramola D Reports](#) yesterday with **Neelu Berry**, a pharmacist whistleblower from the UK and **:David-william:**, a scientist turned civic researcher from the US who encourages all viewers to get up off their couches and take some action if they wish their grandkids and kids to be cured of the scourge of cancer or autism.

## Big Pharma and Cancer Drug Industry Behind MHRA, FDA, OCLAESP

Central to this repeating saga of arresting and re-arresting an innocent cancer researcher who is on record for having saved hundreds of lives is the mighty unseen hand of the pharmaceutical industry propping up the MHRA in the UK, the FDA in the USA, and the OCLAESP in France.

It is this behemoth, Neelu Berry notes, with an American FDA thrust which is behind the current turn of events where Lynda's celebrated release from French jail last week after a huge public outcry in the UK led a French judge to concede that by European law and the European Court of Human Rights, the EAW signed by a prosecutor was invalid and could not be renewed.

People protesting the unlawful extradition of GcMAF Scientist Lynda Thyer in the UK

In fact, notes Neelu Berry, " The EAW had not even been signed by any Prosecutor, only a Translator. Clearly this is just the tip of the iceberg how the Organised Crime Network operates its Extra-Judicial disappearances and assassinations of whistleblowers, billionaires and talent."

## Why is France Even Involved In This Matter?

Immuno BioTech has never operated in France, notes David Noakes. He has stated earlier that the MHRA sought to extradite them both to France "to rot in a French jail" in collusion with the French OCLAESP.

In a recent email, David Noakes wrote:

*"France's Judge Jean-Luc Gadaud lied under oath, created 9 false charges, committed perjury and fraud to arrest Lynda Thyer and myself on a European Arrest Warrant. We did nothing in France.*

*The Crown Prosecutions Service (CPS) should have thrown it out on its arrival, But the CPS would rather prosecute the innocent. That is why 10% of prisoners in English prisons are innocent. The CPS no longer serves the public, and should be closed down.*

*The High Court illegally refused to allow me to appeal against Westminster Magistrates Court extradition on Monday. There are 7 reasons why I can't possibly be extradited, but the senior Freemason in the building illegally wrote the verdict, breaking the law with impunity, and handed it down to Judge Tempia to read out on the 7th November."*

*David Noakes, Email, Dec 17*

The extraordinary situation where a judge confessed publicly that "her" judgment was handed down to her, in order to secure an extradition also for David Noakes, [was covered here earlier](#).

Lynda Thyer has had no court processes in the UK at all, notes Neelu Berry. French Judge Jean-Luc Gadaud issued an extradition order based on nine fabricated charges. This story has been [previously covered in greater detail here](#), with [the extradition on an EAW discussed here](#) as well as in numerous Newsbreaks and reports at [Ramola D Reports](#) including other indy media channels in the UK run by Ian Crane, Andy Devine, Sean Maguire, and Jason Lisiatos.

## **European Arrest Warrants: A Throwback to Feudal Times**

An European Investigation Order essentially commands UK police to hand over British citizens *without evidence of crime* to be subjected in Europe to all manner of profound injustice and humiliation including “covert surveillance”

<https://everydayconcerned.net/2019/08/12/extrajudicial-trafficking-to-suppress-powerful-natural-cancer-cure-uk-gcmf-cancer-treatment-scientist-lynda-tyer-criminally-arrested-extradited-to-france-on-draconian-european-arrest-warrant/>

It also appears to be a form of “extraordinary rendition”—the politically-initiated removal of prisoners in a Western democracy to foreign black sites (secret detention centers) to circumvent domestic laws against torture, as made public by the 2004 Abu Ghraib scandal.

Essential to note is the fact that all charges on which Lynda Thyer was extradited and incarcerated were untrue, fabricated charges: Immuno Bio Tech had never operated in France, there was no money laundering to the tune of 11 million, a figure used perjuriously to secure an EAW and traffick an honest and innocent cancer researcher engaged in saving lives to a French jail, so that the miracle natural cure of GcMAf could be successfully disappeared from public view.

## Jailing Lynda Thyer Means Shutting Down Proven GcMAF Cure for Cancer and Autism

What has occurred now however is that a huge public outcry is simmering in the shadows and likely to break through into a global outpouring of support and outrage.

:David-william:

As :David-william: explains, through his frustration at the enormous crime against humanity that has been committed here, “an innocent woman languishes in prison when she could be out saving lives, as she had been.”

Hundreds of thousands of cancer patients and kids and adults with autism could be treated and cured with GcMAF as Immuno Bio Tech had been engaged in doing– as well as many other diseases, if it were made available via the National Health Service in the UK as an acknowledged natural remedy, as Neelu Berry explains in Newsbreak 48.

The potential exists for all cancer patients and autism patients to come forward and demand from their local governments and state representatives that GcMAF be introduced in their hospitals as a legitimate cancer and autism treatment, notes Neelu Berry.

It is important to note that while several natural cancer treatments and remedies exist, there is only one naturally occurring substance inside the human body which self-activates as part of the body’s immune system, and can be supplemented for those whose immune systems have been compromised by chronic stress and disease, and that is GcMAF. To

understand further how GcMAF works to strengthen the immune system, [please read this post](#), which also discusses the suspicious deaths of numerous holistic and medical doctors in the USA who had actually been helping to cure diseases and save lives.

## Write Immediately To Your Local County Councils and State Governments, MPs and Senators

Neelu Berry suggests that everyone in the UK send this letter template to their representatives and councilors when they write asking for Lynda Thyer's release and asking for GcMAF to be made available in hospitals:

**“GcMAF has been available since 1994. The denial of GcMAF in the UK has been causing 500 cancer deaths per day. Millions of children with autism can be reversed with GcMAF, which is being denied to them because of the false prosecutions of the makers and users of GcMAF.”**

The situation with Lynda Thyer is critical since she is battling many health problems as a result of being held in French prison since July and enduring the ravages of a hunger strike, as well as succumbing to despair and initiating two suicide attempts.

A uniquely talented and gifted researcher and caregiver who could be out saving thousands of lives, Lynda Thyer, sensitive, empathetic, caring, innocent is instead in danger of losing her own in what can be seen by many to be a distinct affront to human rights and a crime against humanity.

Neelu Berry

Reminding everyone (on Newsbreak 48, a historic podcast, please share widely) why Lynda Thyer's life is profoundly important for all humanity, Neelu Berry states:

*“What Linda Thyer can do, what she does is she sits the patient down, she looks at their blood sample under the microscope, and she looks at the way these macrophages are behaving and she uses her knowledge of the types of macrophages and their behavior under the microscope to determine how she's*

*going to treat that patient to the complete healing of not just autism but 50 other diseases.*

*She has the templates for the correct way of making that person recover fully with their own natural capability rate.*

*And she was able to bring the autism reversal time from a non-speaking child to a speaking child in one week—that was otherwise several months – so she’s the only person who could do that, and the only person who would want her harmed would be the profit makers of the monopoly of the patents of Big Pharma.”*

## Piracy on the High Seas Has Come To Our Shores

In a no-holds-barred address to all viewers, :David-william;, whose name is expressed in this “quantum-parse-syntax-grammar” form because he is “operating on the private side” explains that everyone needs to understand that all courts, all governments are private corporations seen as ships in dry dock under mercantile or Admiralty law, that all humans on the planet have sadly been enslaved via birth/berth certificate as slaves of the Vatican Crown corporation, and the only way to gain one’s freedom is to take steps to declare one’s political status as a private rather than public citizen, which in the US translates to being acknowledged as an American national and State citizen rather than a US Citizen, which status translates to that of slave and property—as he discussed in [an earlier Report at Ramola D Reports](#).

Delivering a crucial address to viewers, he states:

*“I’m trying to blow the alarm here .. what I’m saying is if you’re watching this video, have your friends over for dinner–barbecue backyard party, I don’t care – whatever it is, get them over here and watch this — your kids your family are all dying of cancer because of psychotic Freemason scientists, bankers, and bar attorneys ...get it out there.*

*They’re not just preventing you from getting remedy, you’re fighting for your life –self-defense; you’re fighting for your life....*

*We have 320 million people in this country; if one percent would get off their butts we would have a lot less problems. We're all using toxic oil-based fuel when the ocean is made out of water; we can make hydrogen fuel and the product is pure water.*

*Why, because they have everybody slaves— everybody's a slave okay and they're killing us — that's the fact, I don't care what you guys do with this information that I'm telling — all I can tell you is this.*

*It's what needs to get out there, the people need to find out .. United States is setting the pace for these banksters,*

*They are not your friends, they're not as the TV portrays them, they'll say oh so-and-so is our ally – **they're not your ally they're the murderers...**you need to put claims against their estates.*

*We need people to get off their butt and put the budweiser down—your kids are dying .. how many times if you walked by the TV do you hear them saying, oh Linda Thyer has been jailed because terrorists put her in a mental hospital and a prison because she has the ability to stop cancer — no, what we have is a bunch of spineless weasels running around protecting all of the evil people, we need a population that wakes up. This is what I'm trying to say."*

## Implications for Human Rights in France

Eric Simon, a viewer from France who wrote in to Scott Tips, Neelu Berry and this writer says that the implications for the French people are huge.

It is a tremendous trampling of human rights in France, he says, if the European Union Court of Justice can be permitted to impose a ruling regarding the European Arrest Warrant which runs counter to the firm admonition in [Article 6 of the Lisbon Treaty on the European Union](#) to honor " fundamental rights, as guaranteed by the European Convention for the Protection of Human Rights and Fundamental Freedoms signed in Rome on 4 November 1950 and as they result from the constitutional traditions common to the Member States, as general principles of Community law."

*Calling it a "**fundamentally illegal decision by the Court of Justice of the European Union, the CJEU,**" he says, "The CJEU cannot simply deny the very Core of its Constitution, therefore such a ruling is simply a violation against its*

*very core principles, and a breach of European and “universal” Human Rights as set up too by the UN—a serious violation!”*

*...”And by locking up Lyn, Judge Gadaud full well knows that he is shunting Lyn’s legal team the ability TO DEMONSTRATE the dubious duplicity of not only the French judicial system but more, the fact that the EU legal body is consciously raping its own constitution, and very very CONCERNING Sitting FLAT on Human Rights!”*

*Eric Simon, Comment/Newsbreak 48*

All concerned readers are invited to support this unprecedented action for humanity by writing or contacting their local government representatives and making a demand for the release of Lynda Thyer and the introduction and public acknowledgment of GcMAF, the body’s natural cure for cancer, into their local hospitals, clinics, and other healthcare environments, worldwide.
